

Review learner work with AI: build a rubric and keep the final decision human

LearnIA - teaching template - 2026-10-14

Use fictional data for the first trial. Adapt this template to your context and verify the result before using it.

Brief to complete

Objective and intended decision :

Audience and context :

Documents, versions and sources :

Constraints and boundaries :

Expected output format :

Information to confirm :

Reviewer :

Starter instruction

Apply the supplied rubric to the work. For each criterion, give an observation supported by a passage, explain its relevance and propose a formative next step. Separate evidence from interpretation. Do not infer effort, personality or AI use. Do not make a final grading decision. Flag ambiguous cases for the educator.

Quality review

☐ Criteria match the published task.

☐ Observations are supported by the work.

☐ Ambiguous cases are marked.

☐ The educator reviews comments and makes the final decision.

Verification log

Item	Source or calculation	Result	Correction
